5. Please comment on any aspect of this recitation.

41441. fully lecture style, probably would have been helpful to do some of the problems on our own to check our understanding, but the instructor was knowledgeable and able to answer any questions we asked

45467. Really like how recitation was conducted

18355. Recitations aren't particularly long, especially when you have to set aside time for a quiz, so I felt like Kyle did a good job of squeezing in the important material in the time he had.

45468. Going through the problems was helpful each class after the general review. I think trying to have more class participation and student interaction would be helpful in the future.

45482. He was awesome. Taught me this full course.

41344. The recitation was very well organized. Kyle always came in prepared and managed to fit in quizzes, review and practice problems all in the allocated 50 minutes for the recitation section.

46597. I learned course content in a more concise manner during recitation than during lecture.

45506. The recitation was helpful because it gave a general overview of the topics in the week to come, and the explanations given were generally clear and more helpful/specific than what was given in lectures.

6. Would you recommend this TA to someone considering taking a course assisted by him or her?

45529. Definitely. Best TA in all courses I took this semester.

41441. not especially, but I wouldn't tell them to switch out of his section either

18355. Yes

45468. Yes

45482. Yes.

41344. I would definitely recommend Kyle to someone considering taking a course assisted by him. He's a great teacher and will definitely make you learn a lot.

46597. Yes

45506. I would.
